📍 France 📅 5+ Years Experience 🏠 Web developer in freelance @ Showwcase

About

<h1 className='italic text-xl'> Hello there! </h1>

I'm Jules, a freelance web developer based in France, passionate about web development and design for the past 5 years.

I've been constantly learning and practicing, and I specialize in designing and creating full functioning websites (e-commerces, social medias, blogs, digital marketplaces or any other complexes applications) using cutting-edge technologies and frameworks like React.js, Vite.js, or Next.js with Typescript.

Apart from coding. I find solace in playing video games and diving into mangas/webtoons. My love for music accompanies me throughout the day, whether I'm at the gym, working, or even sleeping (although I don't recommend the latter).

If you have a project in mind or want to discuss how we can collaborate, I'd love to hear from you!
