📍 France | ⏩ 5+ Years Experience | 💼 Web Developer @ Showwcase
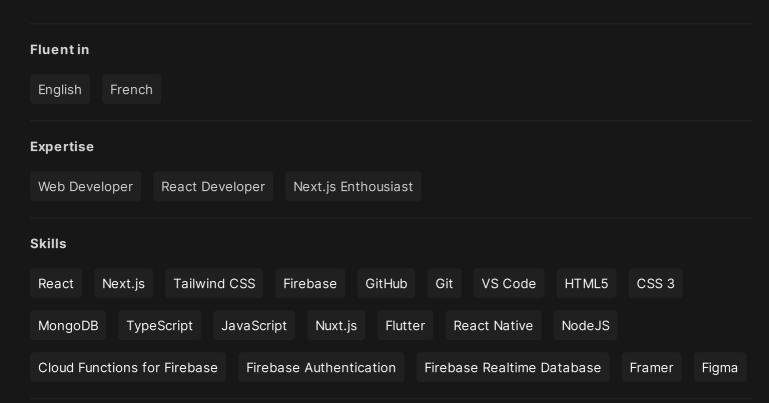

About

<h1 className='italic font-bold'> *Hello !* </h1>

I'm a 21-year-old freelancer and passionate web developer based in France who has been constantly learning and practicing web development for the past 4 years.

Apart from that, I love playing video games or read mangas to detach myself a bit from the routine. I also love to listen to music: I listen to music every day while playing video games, in the gym, while coding, or even while sleeping.

Last, but not least, I love cats 🐱
